

Masport®

AU

PRESIDENT® | OUTDOOR POWER EQUIPMENT 2020/21

110 years in the making

With 110 years of innovation, Masport has grown to become a market leader for outdoor garden and lifestyle products. Synonymous with quality and reliability, the brand has been trusted by Aussies for generations.

Masport is sold in over 45 countries worldwide and continues to develop outstanding products.

PRESIDENT®

EXCEPTIONAL WARRANTIES

We are committed to quality and performance. On offer is a full comprehensive warranty, so you know exactly what is covered.

Masport push mowers featuring Briggs & Stratton engines receive an industry leading exclusive **5 year comprehensive warranty on the entire mower***. Giving extra confidence and longevity for these lawnmowers.

OUR LAWNMOWER CHASSIS AND PARTS WARRANTIES

We offer you an impressive 10 year warranty on all aluminium chassis. If you prefer a steel chassis you'll enjoy a 5 year warranty*. Both aluminium and steel push mower options come with a 5 year warranty on ALL parts*.

LIFETIME CATCHER WARRANTY

Masport's HDPE Plastic Catcher comes with a Lifetime Warranty.

BRIGGS & STRATTON STARTING PROMISE

Briggs & Stratton 500, 600, 700 and 800 series engines include a Starting Promise. If they don't start in line with the starting promise, return it to an authorised Briggs & Stratton engine service agent, and they will fix it for free*.

RapidStart™ engines will always start with a maximum of 5 primes and 4 pulls, or it is fixed for free*.

With ReadyStart™, there's no need to manually prime or choke the engine on your mower, even from a cold start. Now even the least experienced lawn mower user can confidently start their mower. This engine should start on one or two pulls, or it is fixed for free*.

*Conditions apply, see www.masport.com.au for more information.

LITHIUM-ION POWERED LAWNMOWERS

M-TECH® POWER MANAGEMENT

Masport has made durable and high-performance lawnmowers for over 80 years and know how to make a lawnmower that can be trusted and relied on to last.

Masport M-TECH® is a new power management system which provides the latest lithium-ion battery technology to power brushless induction electric motors that will match the performance of many domestic petrol powered models.

Load sensing technology adapts the mower to the cutting conditions, sensing grass thickness and optimising power requirements for the best quality of cut, balancing power and maximising runtimes through intelligent and efficient energy use.

The M-TECH® mower range has a model suitable for most residential yard sizes. The 58V model is ideal for small to medium sized lawns and if more power and run time is required, the 84V model is the right choice, perfect for larger lawns and more demanding conditions.

Utilising the same handles, disc system, wheels, catcher and cutting deck as those equipped to our petrol motors, there is no compromise on quality or performance.

The M-TECH® mower range will give you the freedom and convenience that comes with lithium-ion battery technology on a Masport mower that's proven to perform for years to come. Now you can just push a button and mow instantly with emission free power and true mower performance.

ALL M-TECH® MOWERS ADVANTAGES:

- Zero emissions
- Low noise
- Push button starting
- Minimal maintenance requirements
- 5 stage LED battery level gauge
- Long run times

ALL PRESIDENT® LITHIUM-ION LAWNMOWERS ARE BACKED BY OUR 5 YEAR DOMESTIC MOTOR AND BATTERY WARRANTY

SEE PAGES 20-21 FOR MORE DETAILS ON THE LITHIUM-ION POWERED MOWER RANGE

ONLY AUTHORISED DEALERS CAN CARRY MASPORT'S PRESIDENT® SERIES. THEY ARE THE EXPERTS, ADVISING YOU ON THE MOWER BEST SUITED TO YOUR NEEDS, LIFESTYLE OR BUDGET AND DELIVER THE KIND OF SUPERIOR AFTER SALES SERVICE AND ADVICE YOU DEMAND.

MASPORT BLADE SYSTEMS

Masport Quickcut® Blade Disc System

For superior cutting, mulching and catching performance, Masport mowers are fitted with a unique blade cutting system. The Masport Quickcut® blade is a top quality specially designed blade for cutting and mulching.

Masport Two & Four Blade Disc System

This blade system runs two or four swing back blades suitable for catching and mulching applications, and is fitted on selected Masport President® catching and mulching models.

Masport Quadcut® Four Blade Disc Cutting System

A specially designed four blade disc system, great for catching due to increased airflow.

Masport Quadcut® with Chipper Blade

The additional chipper blade allows your mower to chip branches up to 35mm into garden mulch, when fed through the mower via the Chipperchute.

Swingback Feature

All blade systems have a swingback feature, designed to protect the crankshaft from damage should the mower hit a solid object.

WHEELS

Masport's adjustable dual bearing wheels make the mower easy to push and, with a threaded axle and nut, the wheels can easily be adjusted if they become loose after significant use. These wheels are made of polyethylene and designed to last. They have been vigorously tested for 600+ hours to ensure quality and durability.

CUTTING HEIGHTS

Push lawnmowers have a range of cut heights from 10mm to 70mm. Height can be adjusted in one simple lever movement which is much faster than systems that require each individual wheel to be adjusted.

COMBO 2'N1
catch and mulch options on these mowers

COMBO 3'N1
These mowers have catch, mulch & side discharge options.

GENIUS 4'N1
These mowers have catch, mulch, side discharge & chip options.

MASPORT HANDLE SYSTEMS

PVC Grip

For added comfort during operation

Soft Grip

For superior comfort and less vibration during mowing

One Piece lower handle

Reinforced lower 'U' handle for added strength

Two Piece

Stub handle with no middle bar for easy catcher access

A RANGE OF CHASSIS SIZES TO SUIT YOUR NEEDS

High-arch design

Allows airflow created from the blades to draw the grass upwards for multiple cut cycles before flowing into the catcher, creating enhanced mulching and catching performance.

420MM (16.5") CHASSIS

- Smaller cutting chassis for smaller lawns or tricky grass areas
- Easy to manoeuvre

460MM (18") CHASSIS

- High-arch design
- Single Mowzone (left side)

485MM (19") CHASSIS

- High-arch design
- Wider cutting width
- Dual Mowzone®

540MM (21") CHASSIS

- High-arch design
- Wider cutting width
- Dual Mowzone®

530MM (21") UTILITY CHASSIS

- Wider cut
- Specially designed Side Discharge chassis
- Strong and reliable for demanding conditions

* Please note, not all mowers in our range contain all of these features

THE PRESIDENT® RANGE IS OUR PREMIUM MOWER SERIES, PACKED WITH MULTIPLE FEATURES MAKING LAWNMOWING EASY.

LOOK FOR THE ICONS THAT REPRESENT THE FEATURES YOU REQUIRE THROUGHOUT THE BROCHURE.

HANDLE LIFT SYSTEM

The Handle Lift System allows you to quickly and easily access the catcher (or Smartchute® system). Simply step on the foot pedal and lift the handle. Once the handle is returned to the operating position, it will lock in firmly providing responsive handling. It also reduces storage space.

SELF PROPELLED

Let the mower do the work. These models are fitted with a self drive system. All you need to do is squeeze the self propelled bail to the handle to propel the mower forward. This reduces pushing effort making mowing quicker and easier!

MASPORT DUAL MOWZONE®

With the blade coverage extending beyond the wheel width on both sides, the mower can cut closer to walls, kerbs, and fences, giving a cleaner finish to your lawn.

SMARTCHUTE®

Mow without the catcher and avoid messy grass clumps. The Masport patented Smartchute® will side discharge a clean spread of clippings as you mow to leave your lawn looking wonderful. Just engage the unique feature and begin mowing.

MOWER STARTING

Zone Start
The conveniently positioned starter cord eliminates the need to bend all the way down to pull-start, reducing the risk of back strain.

REAR DISCHARGE

With the rear discharge chute, the mower can be used effectively without a catcher. It is designed to work with Masport's unique 'high-arch' housing and blade systems which generate great airflow.

MULCHING

When you mulch there is less weight to push and no stopping to empty the catcher. The high-arch chassis design and the special blade means it also naturally recycles your grass by re-cutting the clippings and feeding them back into your lawn.

INSTART® & INTEGRATED INSTART®

Briggs & Stratton's InStart® & Integrated InStart® lithium-ion electric start engines take the guessing game out of starting your lawnmower. No more priming, choking or pulling the rope. These engines combine the power of petrol and the starting reliability of lithium-ion battery technology.

MOW N'STOW®

Masport and Briggs & Stratton have designed a concept to make storage easier and more efficient. The Masport crafted exclusive handle system folds upright and then back on itself to create a sturdy base. The Briggs & Stratton designed engine tips backwards up to 110° without any fuel or oil leakage and is completely safe. Mow the grass, stow the mower and save significant shed space!

HANDMOWERS

Sick of those lightweight hand mowers that are so light they skid over the grass without cutting it? Then the Masport Cleveland 460 Heavy Duty Hand Mower is the solution.

This premium hand mower, constructed in heavy-duty steel is fully adjustable. The heavy-weight cast alloy wheels fitted with solid rubber tyres provide remarkable traction, unseen on other hand mowers. Heat treated 6 blade alloy-steel cutting cylinder and bottom blade cut the lawn cleanly, much like a pair of scissors, delivering a manicured professional looking finish which will be the envy of your neighbours.

CLEVELAND 18"

552803

- FEATURES**
- 13mm - 56mm cutting range
 - 460mm (18") cutting width
 - Heat treated alloy steel 6 blade cutting cylinder and bottom blade.
 - Resharpenable blades ensure continuous and precise cutting and a long working life.
 - Comfortable T-Style handle with cushion grips
 - Robust Fabric Catcher included
 - 9" Cast Alloy wheels with solid rubber tyres
 - Strong steel drive pinions
 - 2 Year Warranty

ELECTRIC MOWERS

The Masport Electric Mower is an easier way to mow the smaller lawn - no fuel to mix, just plug it in and mow.

ELECTRIC MOWER

552800

- FEATURES**
- Powerful 1600 watt motor gives the mower enough power to tackle a small to medium sized lawn
 - 420mm (16.5") cutting width
 - Ergonomic height adjustable upturned handle with PVC grip
 - Large 45 litre catcher
 - Suits small to medium sized lawns with light to medium grass conditions
 - Fan assisted grass catcher
 - Mulch Ready - Mulch Plug available as optional extra
 - 2 Year Warranty

FEATURES

CONTRACTOR SERIES

BUILT TOUGH, MADE TO LAST

Great gardens and professional looking landscapes demand equipment that is hardworking and reliable.

GT AGILITY PRO 3 SPEED COMMERCIAL TRANSMISSION

A commercial grade, all metal, constant mesh, oil lubricated, cone clutch gearbox featuring precision bearings to the shafts. Designed for commercial applications, it provides reliability and durability. Ground speeds at 3200rpm are: 1st - 3.74 km/h, 2nd - 5.11 km/h, 3rd - 6.63 km/h, providing the perfect speed-to-job ratio demanded by contractors and homeowners with large yards.

PROFESSIONAL CAST ALUMINIUM WHEELS & PRECISION BEARINGS

Professional grade, heavy duty, cast aluminium 8" front & 9¼" rear wheels with synthetic rubber tyres are extremely tough and are designed to operate under commercial conditions.

Each wheel is complemented by dual 6202 precision sealed bearings, making the mower easy to push, virtually maintenance free and long lasting.

STEEL REAR DISCHARGE CHUTE

Designed to work without a catcher or mulch plug, the rear discharge chute will spread the grass across the full width of the chute and direct the cut grass toward the ground. This allows the user to mow at any height without the need to stop mowing to empty a catcher, reducing mowing time and running costs, plus recycling the cut grass.

LARGE CAPACITY DACRON CATCHER

The double lined Dacron catcher with dust cover holds 80L. The fabric catcher improves airflow maintaining catching performance, while the dust cover directs airflow downwards, reducing dust updraft for the operator.

BOLT IN AXLES

The front axle is held firmly in place with steel bearing plates bolted directly to the chassis, which also securely retains the plastic axle pivot bush tight. The rear axle is bolted directly to the chassis through the rear bearing chassis, providing a strong fix to the mower.

BUMPERS

A front bumper and engine guard offer protection to the cutting chassis, front axle and engine. These bumpers also provide a valuable lifting handle and tie down point to secure the mower.

ROBUST HANDLES & HEAVY DUTY CONTROLS & CABLES

Large diameter and heavier gauge upper and lower handles withstand the heavy forces applied to provide extra durability. The lower handle has additional bracing, reducing any lateral movement.

The heavy duty control and cables are extremely robust and resilient to breakage and wear, providing greater longevity.

7 TONNE LOG SPLITTER

552608

- FEATURES
- 2300W, 230V motor
 - Simple to operate and maintain
 - Electric power means less noise and no fumes
 - Can also be used indoors or in covered areas
 - 320mm (12 1/2") max log diameter
 - 520mm (20") max log length
 - Hydraulic 7 tonne ram
 - The ram return is spring loaded making resetting for the next log fast and easy
 - Splits most logs in less than 12 seconds
 - Rugged wide-stance design provides stability
 - Wheels for portability
 - 4 way splitting attachment included
 - Two-handed operation - keeps operator away from moving parts
 - 2 Year Warranty

4 way splitting attachment

5 TONNE LOG SPLITTER, KINETIC

552882

- FEATURES
- 1500W, 240V motor
 - Simple to operate and maintain
 - Electric power means less noise and no fumes
 - Can also be used indoors or in covered areas
 - 280mm (11") max log diameter
 - 400mm (16") max log length
 - The ram return is spring loaded making resetting for the next log fast and easy
 - Splits most logs in less than 2 seconds
 - Rugged wide-stance design provides stability
 - Wheels for portability
 - 2 Year Warranty

8 TONNE LOG SPLITTER, KINETIC

553001

- FEATURES
- 1600W, 240V motor
 - Simple to operate and maintain
 - Electric power means less noise and no fumes
 - Can also be used indoors or in covered areas
 - 350mm (13.75") max log diameter
 - 520mm (20.5") max log length
 - The ram return is spring loaded making resetting for the next log fast and easy
 - Splits most logs in less than 2 seconds
 - Rugged wide-stance design provides stability
 - Wheels for portability
 - Two-handed operation - keeps operator away from moving parts
 - 2 Year Warranty

PETROL EDGER - B&S

550913

- FEATURES
- Powered by Briggs & Stratton 127cc OHV Series 550 IC horizontal shaft engine
 - Ten position height control and large cutting range allows for different height settings for a variety of purposes
 - Cutting Range: 2cm above ground to 6cm below ground
 - 240mm (9.5") Bar Blade
 - Fold down handles are designed for convenient storage
 - OPC controls for added safety that contains "lockout" feature to prevent accidental operation
 - Height control system adjustable from operating position
 - 150mm (6") front and 200mm (8") rear ball bearing wheels
 - 4 Year Warranty*

 - Ten position height control and large cutting range allows for different height settings for a variety of purposes
 - Cutting Range: 2cm above ground to 6cm below ground
 - 240mm (9.5") Bar Blade
 - Fold down handles are designed for convenient storage
 - OPC controls for added safety that contains "lockout" feature to prevent accidental operation
 - Height control system adjustable from operating position
 - 150mm (6") front and 200mm (8") rear ball bearing wheels
 - 4 Year Warranty*

4 WAY HOME GARDENER

550905

- FEATURES
- Powered by Briggs & Stratton 127cc OHV Series 550 IC horizontal shaft engine
 - Sturdy shaft drive with worm-drive gearbox transmission
 - 280mm (11") tilling width without outside tines
 - 430mm (17") tilling width standard
 - Lightweight - 46.3kg
 - Simple controls and rugged construction
 - Comes with tines, garden aerator, lawn edger and cleaning brush
 - Lightweight - 46.3kg
 - 4 Year Warranty*

PRESIDENT CHIPPER SHREDDER - HONDA GC160

BIO2025

- FEATURES
- Honda 160cc OHV GC160 engine
 - Double chipper blades
 - Larger branches can be fed through the 50mm x 50mm side chute
 - 9 flail hammer blades
 - Weeds and other garden materials are reduced to a fine mulch so they can't regenerate
 - Large pneumatic wheels and hopper handle for manoeuvrability
 - Bar grate which is designed to avoid clogging with damp leaves and foliage is included
 - V-Belt drive system
 - Safe and reliable
 - 4 Year Warranty*

Bar Grate

6.0HP CHIPPER SHREDDER

BIO2021

- FEATURES
- Powerful 6.0HP 205cc OHV IC Briggs & Stratton engine
 - Double chipper blades
 - Larger branches can be fed through the 50mm x 50mm side chute
 - 9 flail hammer blades
 - Weeds and other garden materials are reduced to a fine mulch so they can't regenerate
 - Large pneumatic wheels and hopper handle for manoeuvrability
 - Bar grate which is designed to avoid clogging with damp leaves and foliage is included
 - V-Belt drive system
 - Safe and reliable
 - 4 Year Warranty*

Bar Grate

CHIPPER SHREDDER - 196CC

BIO2027

- FEATURES
- Powered by Loncin 196cc OHV engine
 - Double chipper blades
 - Larger branches can be fed through the 50mm x 50mm side chute
 - 9 flail hammer blades
 - Weeds and other garden materials are reduced to a fine mulch so they can't regenerate
 - Large pneumatic wheels and hopper handle for manoeuvrability
 - Bar grate which is designed to avoid clogging with damp leaves and foliage is available as an optional extra
 - V-Belt drive system
 - Safe and reliable
 - 4 Year Warranty*

Bar Grate

5.0HP CHIPPER SHREDDER - HONDA

BIO2026

- FEATURES
- Powerful 5.0HP 160cc Honda GX160 engine
 - Double chipper blades
 - Larger branches can be fed through the 50mm x 50mm chipper chute
 - 9 flail hammer blades
 - Weeds and other garden materials are reduced to a fine mulch so they can't regenerate
 - Large pneumatic wheels and hopper handle for manoeuvrability
 - Bar grate which is designed to avoid clogging with damp leaves and foliage is available as an optional extra
 - V-Belt drive system
 - Safe and reliable
 - 4 Year Warranty*

WARRANTY AND DISCLAIMER INFORMATION:

All Masport products carry a manufacturer's warranty. Please refer to your warranty card supplied with each product for details and conditions for specific models.

This brochure supersedes all previous Masport President® range brochures. Product specification, colours and prices are subject to change without prior notification. Not all models may be stocked at all stores. Whilst care has been taken in the preparation of this document, Masport is constantly improving and updating its product range, therefore model specifications may vary and should be checked at time of purchase.

Masport products are covered by the following design registrations:

405399, 407916, 407917, 411355, 411354, 417631, 418171,
407915, 407913, 411353, 414788, 414789, 414790, 414791, 414792, and patents: 330634, 570911, 589942/590235, 605098, 605114.
